

Submission Instruction

How to submit an article/manuscript to the concern journal through BanglaJOL system.

- Go to the BanglaJOL official site/page (<http://www.banglajol.info>)
- Search your concern journal to submit your article/manuscript.(i.e. Journal of Bangladesh Academy of Sciences)
- After finding the journal go to journal home page by clicking the journal cover page or name of the journal
- Now “register” yourself/your account providing email address and necessary basic information. (By registration to the particular journal you will be able to get user id and password to login to the portal for submitting your manuscript to the concern journal*)
- After successfully registration please go again to the concern “journal home page”
- Then click to the “login” button (top of the right corner) and enter the registered “user id” and “password” for login
- After that click again to top of the right corner to your “user name/id” and then click “dashboard” (It will be redirect to the backend of journal portal for taking submission your manuscript through some process)
- The manuscript submission process: author’s guide is given below

*Remember: For submitting your manuscript

- Must have to register with one valid email id
- No more need to register twice for different journal even to work in the different role in different journal which are enlisted to BanglaJOL portal.
- By default the author role will be enabling after successfully registering
- Readers role is open no need to register for reading any journals article
- Other roles (i.e. Journal editor/manager, production/section editor, & reviewer etc.) are reserved & can be enabling due to prior permission of the concern journal authority
